**Improving Government Regulations;
Unified Agenda of Federal Regulatory
and Deregulatory Actions**

AGENCY: Department of Defense (DoD).

ACTION: Semiannual regulatory agenda.

SUMMARY: The Department of Defense (DoD) is publishing this semiannual agenda of regulatory documents, including those that are procurement-related, for public information and comments under E.O. 12866 "Regulatory Planning and Review" and section 25 of the Office of Federal Procurement Policy Act of 1988 (41 U.S.C. 421(g)). This agenda incorporates the objective and criteria, when applicable, of the regulatory reform program under E.O. 12866, the Federal Procurement Policy Act, and other regulatory guidance. It contains DoD issuances initiated by DoD components that may have economic and environmental impact on State, local, or tribal interests under the criteria of E.O. 12866. Although most DoD issuances listed in the agenda are of negligible public impact, their nature may be of public interest and, therefore, are published to provide notice of rulemaking and an opportunity for public participation in the internal DoD rulemaking process.

The agenda portion of this document updates the report published on April 25, 1997, and includes regulations expected to be issued and under review over the next 12 months. The procurement-related agenda items included herein will also be used by the Office of Federal Procurement Policy to publish the "Procurement Regulatory Activity Report" required by the Office of Federal Procurement Policy Act Amendments of 1988.

The next agenda is scheduled to be published in April 1998, with the next regulatory plan scheduled for October 1998. In addition to this agenda, DoD components also publish rulemaking notices pertaining to their specific statutory administration requirements as required.

SUPPLEMENTARY INFORMATION: This edition of the Unified Agenda of Federal Regulatory and Deregulatory Actions is composed of the regulatory status reports, including procurement-related regulatory status reports, from the Office of the Secretary of Defense (OSD) and the Departments of the Army, Navy, and Air Force. Included also is the regulatory status report from the U.S. Army Corps of Engineers, whose civil works functions fall under the reporting requirements of E.O. 12866 and involve water resource projects and regulation of activities in waters of the United States.

For this edition of DoD's regulatory agenda, the most important significant regulatory actions are included in The Regulatory Plan, which appears in Part II of this issue of the **Federal Register**. The Regulatory Plan entries are listed in the Table of Contents below and are denoted by a bracketed bold reference, which directs the reader to the appropriate Sequence Number in Part II.

DoD issuances range from DoD directives (reflecting departmental policy) to implementing instructions and regulations (largely internal and used to implement directives). The OSD agenda section contains the primary directives under which DoD components promulgate their implementing regulations.

To ease identification and to differentiate among the variety of issuances reported, they are identified by their DoD internal numbering system, which denotes component level of authority and type of issuance, in addition to the required CFR number.

In addition, this agenda, although published under the reporting requirements of E.O. 12866, continues to be the DoD single-source reporting vehicle, which identifies issuances that are currently applicable under the various regulatory reform programs in progress. Therefore, DoD components will identify those rules which come under the criteria of the:

- a. Regulatory Flexibility Act;
- b. Paperwork Reduction Act of 1995;

DOD

c. Office of Federal Procurement Policy Act Amendments of 1988.

Those DoD issuances, which are directly applicable under these statutes, will be identified in the agenda and their action status indicated. Generally, the regulatory status reports in this agenda will contain four sections: (1) Prerule stage; (2) proposed rule stage; (3) final rule stage; and (4) completed actions. Where certain regulatory actions indicate that small entities are affected, the effect on these entities may not necessarily have significant

economic impact on a substantial number of these entities as defined in the Regulatory Flexibility Act (5 U.S.C. 601(6)).

Although not a regulatory agency, DoD will continue to participate in regulatory initiatives designed to reduce economic costs and unnecessary environmental burdens upon the public. Comments and recommendations are invited on the rules reported and should be addressed to the DoD component representatives identified herein.

Although sensitive to the needs of the

public, as well as regulatory reform, DoD reserves the right to exercise the exemptions and flexibility permitted in its rulemaking process in order to proceed with its overall defense-oriented mission. The publishing of this agenda does not waive the applicability of the military affairs exemption in section 553 of title 5 and section 3 of E.O. 12866.

Dated: August 13, 1997.

D. O. Cooke,

Director, Administration and Management.

Abstract: The Legislative Branch Appropriations Act of 1996 transferred to the Director of the Office of Management and Budget (OMB) the Comptroller General's authority to settle claims. The OMB Director subsequently delegated some of these authorities to the Department of Defense (DoD). Later, the General Accounting Office Act of 1996 codified many of these delegations and transferred to the OMB Director the authority of the Comptroller General to

waive uniformed service member and employee debts arising out of the erroneous payment of pay or allowances exceeding \$1,500. The OMB Director subsequently delegated the authority to waive such debts of uniformed service members to DoD and the authority to waive employee debts to the employee's agency (non-DoD agencies may request an advisory opinion from DoD). The Secretary of Defense further delegated his claims settlement authority to the Defense Office of Hearings and Appeals (DOHA). This proposed rule seeks public comments on the procedures that DOHA proposes to use to implement these authorities.

Abstract: The Department of Defense is taking the next step toward establishing the DoD Grant and Agreement Regulations. They are being established to satisfy a need for uniform policies and procedures for DoD Components' award and administration of grants and cooperative agreements. The Department of Defense proposes to add four new parts and to make minor amendments that update two of the four existing parts of the DoD Grant and Agreement Regulations. The four proposed new parts: address DoD Components' overall management of grant and agreement functions; set forth DoD Components' and grants officers' responsibilities related to the award and administration of grants and agreements; implement administrative requirements in OMB Circular A-110 for grants and agreements awarded to institutions of higher education and other nonprofit organizations; and establish administrative requirements for awards to commercial organizations. The proposed minor amendments to the two existing parts: provide DoD-specific procedures related to Governmentwide restrictions on lobbying; and update administrative requirements for awards to State and local governments, to conform with recent changes in statutes and statutory implementation.

Abstract: This rule proposes to revise certain requirements and procedures for reimbursement under the TRICARE program, the purpose of which is to implement a comprehensive managed health care delivery system composed of military medical treatment facilities and CHAMPUS. Issues addressed in this rule include: implementation of changes made to the Medicare Prospective Payment System (PPS) upon which the TRICARE/CHAMPUS DRG-based payment system is modeled and required by law to follow wherever practicable, along with changes to make our DRG-based payment system operate better; extension of the balance billing limitations currently in place for individual and professional providers to non-institutional, non-professional providers; adjusting the CHAMPUS maximum allowable charge (CMAC) rate in the small number cases where the CMAC rate is less than the Medicare rate; and implementing the government-wide debarment rule where any provider excluded or suspended from CHAMPUS shall be excluded from all other programs and activities involving Federal financial assistance, such as Medicare or Medicaid, and adding violations of our balance billing or claims filing requirements to the list of provider actions considered violations of the CHAMPUS program.

Legal Authority: 10 USC ch 55; 5 USC 301

CFR Citation: 32 CFR 199

Legal Deadline: None

Abstract: This rule revises the comprehensive CHAMPUS regulation pertaining to basic CHAMPUS benefits in accordance with several statutory changes. This rule: sets forth the requirements for reinstatement of CHAMPUS eligibility for beneficiaries under age 65 who would otherwise have lost eligibility for CHAMPUS due to eligibility for Medicare as a result of disability or end-stage renal disease (ESRD); establishes new classes of CHAMPUS eligibles; establishes the Transitional Assistance Management Program which provides transitional health care for members (and their dependents) who served on active duty in support of a contingency operation and for members (and their dependents) who are involuntarily separated from active duty; allows former spouses who buy a conversion health policy to keep CHAMPUS eligibility for twenty-four (24) months for preexisting conditions that are not covered by the conversion policy; and makes minor technical revisions to the double coverage provisions. In order to expedite compliance with the statutory requirements, all of these provisions have been implemented under interim instructions. This proposed rule also adds a new category of eligible beneficiary under the Continued Health Care Benefit Program.

Priority: Info./Admin./Other

Legal Authority: 10 USC ch 55; 5 USC 301

CFR Citation: 32 CFR 199

Abstract: Currently, any individual who is a civilian employee of the United States government cannot be authorized by CHAMPUS as a provider of medical services. We propose to provide an exception to this prohibition to permit these individuals to be authorized CHAMPUS providers if they meet three conditions. First, they must be employed by the government agency on a part-time basis, that is, less than twenty (20) hours per week. Second, the agency must certify that unique or special circumstances detrimental to the delivery of quality health care exist that can be overcome only by employing part-time, non-government physicians. Third, the agency and the physician must certify that they understand and have taken appropriate measures to avoid violation of Standards of Conduct, dual compensation, and conflict of interest requirements including protection against referral of patients to the employee's private practice.

995. • TRICARE SENIOR: DEMONSTRATION OF MILITARY MANAGED CARE CHAMPUS DEMONSTRATION PROJECT NOTICE

Priority: Info./Admin./Other

Legal Authority: 10 USC 1072

CFR Citation: None

Legal Deadline: None

Abstract: This notice is to advise interested parties of a demonstration project in which DoD will enroll a

certain number of Medicare eligible military retirees in a managed care program, called TRICARE Senior, at selected military treatment facilities (MTFs). This project will be conducted in two phases, the first of which is the subject of this notice. The TRICARE Senior demonstration project seeks to show that a DoD-operated managed care program can provide more effective and efficient health care services to beneficiaries eligible for both military health care and Medicare. In the initial phase of the project, DoD will grant enrollees in the program priority access to health care at designated MTFs in exchange for their agreement to receive all of their health care from DoD providers or from providers to whom enrollees are referred by DoD. Funding for the demonstration will come from the current level of DoD expenditures on care provided to the Medicare-eligible population at MTFs on a space-eligible basis, referred to as DoD's level of effort. Claims for care provided to enrollees outside the MTF will be submitted to Medicare on a fee-for-service basis by the civilian provider. At the end of each year of the project, DoD, in consultation with the Department of Health and Human Services (HHS), the Health Care

Financing Administration(HCFA), will conduct an analysis of the costs of the program to determine the amount Medicare would have reimbursed DoD for care provided enrollees in the program had DoD been operating like a HCFA-approved Medicare-risk HMO. That is, DoD will, to the limited extent feasible, simulate reimbursement from Medicare. DoD will conduct this demonstration over three years and three months, from June 1, 1997, to August 31, 2000, or until a Medicare demonstration project begins.
